Raebareli, Uttar Pradesh, India

## OBJECTIVE

Aspiring full-stack developer with hands-on experience in building responsive, dynamic web applications using JavaScript, Node.js, Express.js, and MongoDB. Skilled in user interface design, problem-solving, and frontend development. Experienced with cloud platforms like MongoDB Atlas and Cloudinary. Seeking an opportunity to contribute to a forward-thinking team, grow as a developer, and make a meaningful impact.

- **Programming Languages:** JavaScript, Java
- **Frontend Development:** HTML, CSS, Bootstrap, Tailwind CSS, React.js
- **Backend Development:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Tools / Platforms:** GitHub, Git, VS Code, Postman, Cloudinary, MongoDB Atlas
- **Soft Skills:** Problem Solving, Teamwork, Leadership, Time Management, Public Speaking, Work Ethic

## PROJECTS

- **Wanderlust – A Full-Stack Airbnb Replica** May 2025  
Tech Stack: [MongoDB, Express.js, Node.js, Passport.js, Cloudinary, EJS, Bootstrap, HTML, CSS, Javascript]  
  - Built a full-stack vacation rental platform inspired by Airbnb using the MERN stack with cloud-based storage.
  - Implemented secure user authentication and authorization with Passport.js and session-based login.
  - Enabled users to create, manage, search, sort, and review property listings with location-based interactive maps.
  - Integrated Cloudinary for image uploads and MongoDB Atlas for scalable cloud data storage.
  - Followed MVC architecture to maintain modularity and deployed the app on Vercel for live production.
- **User Drive – A Cloud File Storage App** November 2024  
Tech Stack: [Node.js, Express.js, MongoDB, MongoDB Atlas, Cloudinary]  
  - Developed a full-stack cloud storage platform allowing users to upload, manage, and access files securely.
  - Implemented user authentication for secure login and signup using Express sessions and MongoDB Atlas.
  - Integrated Cloudinary for reliable media and document upload with efficient cloud delivery.
- **Front Page Generator - FGP** June 2024  
Tech Stack: [HTML, CSS, JavaScript, PDF-Lib, Tailwind CSS]  
  - Built a tool to help students quickly create front pages for practical files, removing the hassle of manual formatting.
  - Added dropdowns and fields to customize subject, branch, session, teacher, and student details.
  - Designed a responsive, beginner-friendly UI for fast and easy PDF generation.
  - More than 1000+ front pages have been created by diploma students so far.

## ACHIEVEMENTS

- **Networking:** Built a strong online presence with 500+ LinkedIn connections and 1000+ followers; actively engage with tech professionals and peers.
- **Projects:** [Front Page Generator](#)  — expanded from serving my college to supporting diploma students across Uttar Pradesh, with 1,000+ front pages generated for various subjects and sessions.
- **Awards & Recognition:** Recognized as *Best Performer* and *Best Speaker* during summer training at Softpro India.
